This is a look a like of her dam, SWS Desert Ember. Desert Music is a calm, solid mare. She should mature 15.2 H. The dam is a competitor in endurance when she is not being bred, and does well. SWS Desert Ember is gaited and has a 12mph trot.

This filly is ready to get saddle training. Basic training done. An exceptional good mare for breeding and/or **serious competition**. Can be KMA registered.

Stargazer has been from the beginning a very nice, people friendly and calm horse. He is very interested in people. Will mature up to 14.3-15H. We think he will make an outstanding trail or **4H** horse; good bloodlines, solid conformation and a nice mind.

This gelding is halter broke, leads very well, started under saddle. Stargazer does everything for you without trouble, if you ask him. He is a good guy. More pictures available. Can be registered at the KMA as Half Kiger.

SWS Black Hawk

Dam: SWS Cheyenne
KMA # pending
Origin: Bred in captivity
DOB: 2001
Height: 14H
Color: dun
M/G/S: Stallion
Price: \$ 7500

Black Hawk is under saddle now for the 3rd year, has been regular on the trail but still needs work. This young stud has a bright future as a sportpony or endurance athlete. He is energetic, works hard and is very personal. He needs an experienced rider.

We have bred with him, rode him in the arena and on the trail with mares & strange horses around: he gives no trouble at all. Very nice character, easy to handle but energetic.

As a breeding farm, we cant keep all our colts: that is the reason we would like to find a new home for this incredible stallion. We have put a lot of time and love in this guy, and are searching for a new owner that will use the potential of Black Haw.
